Community Happenings

February

Celebrating the Dragon, 4:00-5:00/ Commons
The lunar calendar begins in February this year as we celebrate the Year of the Dragon and the cultural holiday from Asian countries including Singapore with traditions of honoring their ancestors and removing any bad luck from the previous year, Did you know red is a lucky color?

How Do You Say?, 2:00 - 3:00pm/ Lyon
The “common language” of Singapore is Mandarin, said to be one of the most difficult to learn. This is a tonal language due to its use of tones to generate meaning. In written form, it is made up of 26 letters or characters. In this live class Jay Larkin (who has lived in China) will be demonstrating this language and teaching some common phrases for us.

With Love From Me to You, 4:00-5:00pm / Commons
Description: With the music of Rebecca Hardiman and Friends, we celebrate and cherish the love of good friendships formed with our SpringRidge neighbors this Valentine’s Day. Chef Keith will cook up some treats, both savory and sweet, including chocolate dipped strawberries to feast on between dances then on to the delicious dinner.

How Can We Help?/ Bus departs at 9:30
Medical Teams International brings basic life-saving medical care to ease the suffering of people devastated by crisis, by mobilizing staff and volunteers to quickly enter places of turmoil, disease and natural disaster – to save lives and leave communities healthier around the world.
We’ll tour their facility and learn ways we can help their mission

The Wellculator™: Small Steps to Big Health

By Celynn Morin (Wellbeing Whisperer)

Navigating health advice can feel like wading through a maze of confusion. For those in the golden years, starting on a new health path can seem daunting, especially when old habits are like comfortable slippers - easy to slip into and hard to replace. Enter the Wellculator™ - a friendly Lifestyle Assessment tailored for seniors, providing clarity amidst the clamor of health advice. This handy tool doesn't just gauge where you stand health-wise; it charts a practical roadmap to enhance your wellbeing with manageable adjustments.

With the Wellculator™, there's no need for drastic changes. The accompanying Express program brings you a collection of videos brimming with actionable insights. They're your personal guide to making the Wellculator™ work for you, fitting snugly into your routine. Why not watch the welcome video and find out what your Wellculator™ score is right now? You can access the program on the Zest app or using this link:
<https://www.celynnmorin.com/srg-residents>.

If your Wellculator™ score has left you pondering your next step, consider embracing the philosophy of tiny habits. Prof. BJ Fogg's concept is simple: start small, anchor new behaviors in your daily life, and celebrate growth. This approach transforms mountainous goals into walkable hills.

Suppose your Wellculator™ score suggests more hydration or stretching could benefit you. Here's how tiny habits might look:

- Pair a glass of water with your morning coffee.
- Integrate five minutes of gentle stretching into your bedtime routine.

It's about consistency, not complexity. Small, daily actions can lead to significant health improvements over time. Also feeling good and celebrating every small step helps to reinforce the behavior!

So, what's your Wellculator™ inspired tiny habit?
What small step will you take towards a healthier life today?
Remember, every big journey begins with a small step.
Let the Wellculator™ guide yours.

SRG Zest Trivia Week

Get ready for a week of intellectual excitement and camaraderie as we present the SRG Trivia Week! Each day, challenge your knowledge with our engaging daily trivia questions, covering a wide range of topics. The highlight of the week is our much-anticipated end-of-week happy hour trivia session – a chance to unwind, socialize, and showcase your trivia prowess. Gather your friends and fellow enthusiasts and join us for an evening of fun and friendly competition. Plus, there are prizes waiting to be claimed by the sharpest minds.

ZestFit: Cardio Circuit

Cardiovascular exercise, also known as aerobic exercise, has numerous benefits for the cardiovascular system and overall health. Participating in regular cardiovascular exercise can improve your heart health by strengthening the heart and making it more efficient at pumping blood throughout the body. This month try our ZestFit Cardio Circuit class to help improve cardiovascular endurance. Cardio Circuit is a ZestFit Program designed specifically for you by our fitness experts. This class will take you through multiple stations of bodyweight and loaded exercises that will challenge your cardiovascular system no matter your fitness level. As with starting any new fitness program, we recommend consulting with your doctor before giving it a try!

Edible Art Series: Fruit Bouquets

Indulge your creative cravings with our enticing edible art classes, where we delve into a captivating array of delectable and visually stunning arrangements. This month's session invites you to immerse yourself in the world of edible aesthetics, as you sip on a glass of wine and learn the art of crafting a beautiful fruit bouquet. During the class, relish the opportunity to experiment with different techniques and styles, learning the nuances of presentation that transform ordinary ingredients into extraordinary works of edible art.

Your Community Spotlights

Employee Spotlight

Linda White joined the SpringRidge Housekeeping staff in December. She says the residents are so nice and she loves the way the staff really pull together.

Born in Berwyn, IL, Linda's family moved to Las Vegas when she was just a toddler. She and her ex-husband have 3 children, now grown up.

She has lived in TX and ID in addition to the early years, and moved to Oregon just recently. She and husband Michael enjoy prospecting for gems in Idaho and Montana. They haven't tried their luck out in Oregon yet but hope to soon. In the meantime, they take her German Shepherd, Bear-Bear down to the beach whenever they can.

Resident Spotlight

Rolland "Rollie" Bowers was born in Toledo, Ohio and grew up there with his 4 siblings. The family enjoyed spending summers on a lake in Michigan where the 4th of July celebrations were a lot of fun.

He earned his BS from Bowling Green University before attending Case Western Reserve Dental School where he earned his Dental degree. He and his late wife, Joan, lived for many years in San Jose where they both were very involved in the Morgan horse world and Rollie was in his private dental practice. The couple later moved to Philomath, OR where they bought a horse farm for their 40 Morgans and became very involved in their new town. The couple have a daughter and 3 granddaughters.

How Food Drives Your Body's Groove

By Amanda Archibald

In January, we told you that exciting changes are on the horizon. We're introducing a groundbreaking dining experience in March designed to optimize your health from the inside out and it starts with your genes. Now we want to tell you a little bit more about this dining experience.

You, Your Genes and Your Plate

Genes are the remarkable instruction manuals within each of your cells. Genes house your DNA—which is your unique code (or recipe) for life. Picture your genes as the architects of your existence. This genetic blueprint, inherited from your parents, shapes both who you are and how your body functions. Your genetic blueprint does not sit in a drawer. In fact, it is active every moment of every day. Thanks to modern science (genomics), we now know a lot more about how to get the best out of our unique Gene Blueprint to influence our health. And the great news is that a lot of influence comes through the food we consume. Nutrients in your diet and other molecules in your food called bioactives act as signals that can turn genes on or off. This means that you can literally target different aspects of your well-being by choosing food that turn individual genes on or off depending on if, when and whether you need those genes to work.

Examples of Powerful Food-Gene Conversations

Cruciferous vegetables (think cauliflower and arugula) and other nutrient-rich foods have the power to turn on genes that produce potent antioxidants, serving as a front-line defense for your cells and overall health. B vitamin-rich legumes, mangos, oranges, and Brazil nuts can activate genes that help remove harmful molecules from your body. Pumpkin and sesame seeds can boost genes responsible for producing serotonin, the hormone that helps to enhance your mood.

A New Science for Eating and Dining

The science we are describing above is called Nutrigenomics. Nutrigenomics explores how nutrients and information in the food you eat interact with and influence your genes. It's a fascinating "food-gene conversation" that goes beyond just "good for me," allowing you to make food decisions that influence your unique gene instruction manual.

Introducing to the Menu

Starting in March your menu will feature dishes that invite you to savor and experience the potency of gene-influencing foods firsthand. It's a fresh and revolutionary approach to eating, cooking, and dining that links the food you enjoy to your overall well-being.

Get ready for a dive into the world of personalized and health-focused dining.
